### Project Summary »

### Ozcare South Brisbane: Roof Encapsulation Project

Application of RTT Sealant Ultimate Dual Layer Solar Reflective Waterproof Membrane

Area: Brisbane QLD

Size: 2,500+m<sup>2</sup>

RTT Sealant completed major roof waterproofing and restoration projects at our facilities in Brisbane and Townsville. The projects were a complete success and not only does the roof look brand new with its bright white solar reflective finish, there are no more leaks into the buildings. Given the size and difficulty of the applications, the hard working RTT Sealant team were up to the task and did a great job. We look forward to working with them on future projects.
